

## **Toolkit Tip for Afterschool Teachers**

As a teacher preparing lesson plans, remember the following planning outline:

**Think** about who the children are and what they need.

**Plan** what you are going to do.

**Get** the materials, resources, and help you need.

**Look** at what children are learning from what you do.

**Change, Improve, and Freshen up** what you do to make it work for the group and for yourself.
